## Center Rock Hires Team Lead Engineer from Caterpillar

**Berlin, PA** – Center Rock is proud to bring on board a well-seasoned Engineering Project Team Lead

### **Dan Reed– Center Rock Research & Development Manager**

With over 14 years working in instrumentation, data acquisition, lab and field testing, CREO 3D modeling, and data analysis, Dan Reed has experience in all aspects of product development and the validation of new products. He also enjoys great success in resolving current production field issues. Dan will oversee R&D at Center Rock’s Berlin, PA facility.

Dan has a Masters of Engineering degree from Iowa State University and a B.S. in Mechanical Engineering Technology from Penn State. He started his career in the industry as an underground coal mine mechanic with Consol Energy, so he literally has experience “from the ground up!”

His more recent work experience includes engineering positions at Volt Technical Resources and Caterpillar Inc., culminating in becoming Caterpillar’s Engineering Project Team Lead in 2015 and continued as such until his hire with Center Rock.

Center Rock’s President & CEO, Dave Pietrzykowski, is looking forward to the contributions Dan will be providing to the entire Center Rock Team.

**Center Rock** offers decades of combined construction and oil field experience along with outstanding customer service. Designed to keep you up and running, we are available to assist customers with sales, service, and technical support. We help our customers spec the right equipment and troubleshoot problems at the drill site. In addition, we offer other services such as hammer and bit repair, reconditioning, custom machining services, and custom design and product consultation.
